

November 2007 Skincare Trends

Sophyto Organics is a new skin care line certified and licensed by the UK Soil Association. The range takes inspiration from Chinese and western medicine as well as the homoeopathic, ayurvedic and neuropathic remedies. On average the "ecoluxe" products contain 95% certified organic materials and are free from petrochemicals and processed nutrients. In addition each are vegan approved and carbon balanced.

There are a wide range of specialised treatments to choose from including:

energising and balancing tonics, a refining peel off mask rich in peptides, acne treatment, EFA moisturiser, polyphenol serum, ultra mild cleanser and glycolic foaming cleanser.
